**RESOLUTION***New Delhi, the 22nd November 1960*

No. 5-21/59-F.II.—The Delhi Zoological Park project was taken up in October 1955, to meet one of the long felt needs of the capital city. The project is being developed as a Zoological-cum-Botanical Park so that it will not only be a centre for recreation and amusement but also be of value to students of natural history. It will also provide a valuable means of preserving the rare species of our fauna by enabling them to be reared and multiplied in captivity. The park has been designed on modern lines and the enclosures therein provide for the animals being displayed in their natural surroundings. The Zoo portion will consist of 57 animal enclosures of which some will be for exotic species from Africa, Australia and Europe. Besides, there will be an aquarium, a serpentarium, a Natural History Museum, a Children's Zoo and a Botanical Park.

4. Composition of the Delhi Zoological Park Council.—The composition of the Delhi Zoological Park Council—hereinafter called the Council shall be as under:—
